The Prez Sez

The picnic was a great success – even the weather cooperated. Over 50 members and their families attended. Almost everyone got a raffle prize thanks to Hank Hankinson and to G - Force Hobbies. The tables were filled with food brought by the members and Tim Asbury arranged for hot dogs, sausage, burgers, and all the trimmings. Thanks to all who helped and to those who came out to enjoy a fine day at the field, this was a fun day.

We dedicated the plaque to Carl Cantera – “Those of us who know him will never forget him and his value to the club. The plaque is a reminder for those that missed this exceptional person, just how much he meant to us”.

Stan Michalski and Tim Asbury gave a presentation to a Boy Scout Troop:

On behalf of the boys and leadership of Troop 603, I would like to thank you for the excellent presentation that was performed at our past meeting. I held off writing this note so that I could get a gauge of the impact the planes and presenters had on the boys, and I can report to you that all were greatly impressed and a good number made mention of visiting Lum's pond to see the planes flying outside.

I truly appreciate your time and effort in bring this experience to my boys!

Again Thanks!

The next event at the field will be the Day in Delaware heli meet. The field will not be closed to flying that day.

Elections will be coming up soon – VP and Secretary offices are to be voted on. See me if you have any interest in taking one of these positions.

Also, Vaughn has decided to end his career as News Letter editor with the December edition. We need someone to carry on this important post.

Message from the Safety Officer

FLYING FIELD SAFETY/RULE REMINDER

- Smoking is not allowed in the pits. Cigarette butts are to be placed in the cans provided and not tossed on the ground in the spectator area or parking lot.
- Children (as spectators) and pets are not allowed in the pit area or flight line.
- Taxiing a model under power (gas or electric) in the pits is not allowed.
- Models with internal combustion engines must be properly restrained while starting.
- Low, high speed fly-bys are to be performed on the far side of the runway, never nearer than the centerline of the runway. It makes no difference how good a pilot is if the airplane is no longer under their control.
