

Glitch Busters

September 2018

SWAP MEET
November 3, 2018

AMA #197

FROM THE EDITOR'S DESK

The club picnic was held Sunday September 2nd. While the notice was short a surprising number of members attended. We also had about a dozen attendees who were not club members. Everyone seemed to have a good time. The weather looked gloomy at the start, but the clouds parted and the sun came out. It was muggy to be sure, but that didn't stop the flying. Only lunch did that. It was a feast. Once most people finished eating, the flying got going in earnest. Both runways were in pretty much constant use.

Bill Fairweather brought his $\frac{1}{4}$ scale Sopwith Pup. Bill put a new engine on it, Vinny tuned it up, and Bill and Vinny

remained the Pup. It flew great. Vinny made what looked like some hot passes down the field, but Bill said he never had the throttle above half. The Pup was woefully underpowered on its maiden last year. It doesn't have that problem any more. Later in the day Bill's Pup took first place in the build competition. It really is a beautiful airplane.

Well other than posting the minutes from the last club meeting, there isn't much else to say. We hope you enjoy the photos from the field.

AUGUST MEETING MINUTES

Show & Tell:

Rick Scott brought a homemade vacuum former and explained his project and members also provided some suggestions. He was looking for some suggestions on how to make his design a better one. Several members provided inputs.

He also showed a trainer that he refurbished. He explained how the incidence of the aircraft was not correct. It was 6 degrees off. He showed us the saddle he constructed to offset the angle. This was an interesting fix.

IMAC

- ✈ This event did not make any profit

Club picnic

- ✈ 2 September 2018

Grass cutting

- ✈ Every Thursday
- ✈ The high grass was cut down since War Birds

Shed improvements

- ✈ It was proposed that stone be placed around the shed in order to prevent the overgrowth that was just taken down by the help of the Park folks.
- ✈ Fred asked a couple of members if they would price this out so this project so a vote could be made for the September meeting
- ✈ Quotes should come to the next general membership meeting

FALL PICNIC
